

PEDIATRIC PLASTIC SURGERY / CRANIOFACIAL SURGERY FELLOWSHIP

Fellowship positions: 1

Fellowship Duration: 1-year

Sites: CHU Sainte Justine Pediatric Hospital

Program Director: Dr. Daniel Borsuk

Fellowship Requirements:

All applicants are expected to have completed a residency in plastic surgery and to be certified by the Royal College of Surgeons of Canada or be Canadian/American board eligible plastic surgeons. A working knowledge of the French language is mandatory. The applicants are expected to be eligible for licensing by the Collège des Médecins du Québec.

Fellowship Description:

The 1-year fellowship in pediatric plastic surgery and craniofacial surgery is a clinical based program designed to expose the fellow to the complete spectrum of pediatric plastic surgery and craniofacial surgery. The fellow will be an active member of the cranial-orbital and maxillo-facial multidisciplinary teams, the cleft lip/palate teams, congenital hand team, pediatric burn team, and congenital ear malformation team. The fellow will be exposed to facial reanimation, brachial plexus, and pediatric microsurgery during the year. The fellow will be expected to participate in all aspects of clinical practice and divisional activities including call, resident teaching, microsurgical and cadaveric lab participation, and clinical research activities.

The fellowship is designed to include clinical exposure to microsurgical reconstruction of the facial skeleton and soft tissues with the use of virtual surgical planning and computer aided manufacturing. The fellow will be an active participant on the Vascularized Composite Allotransplantation team at the Hôpital Maisonneuve Rosemont.

Interested applicants are encouraged to contact Dr. Borsuk. A visit to our institution is encouraged by all interested parties. The interview process will take place 1-year prior to the commencement of the fellowship.
